380GPM

INFLATABLE
BOAT

FACT SHEET

SUPERIOR IN-WATER PERFORMANCE

Survitec's DSB 380 GPM Inflatable Boat is exceptionally lightweight, due to its ultra-light hypalon fabric construction and smaller outboard engines. Engineered to SOLAS standards, the 380 GPM comprises of a skin and buoyancy tube manufactured from UV resistant hypalon with independent air compartments and safe, flush integrated valves.

The boat hull features an inflatable keel inserted into sleeve sections with single point inflation and combines operator-friendly, advanced performance with quick service capabilities and a durable and innovative design for up to six passengers.

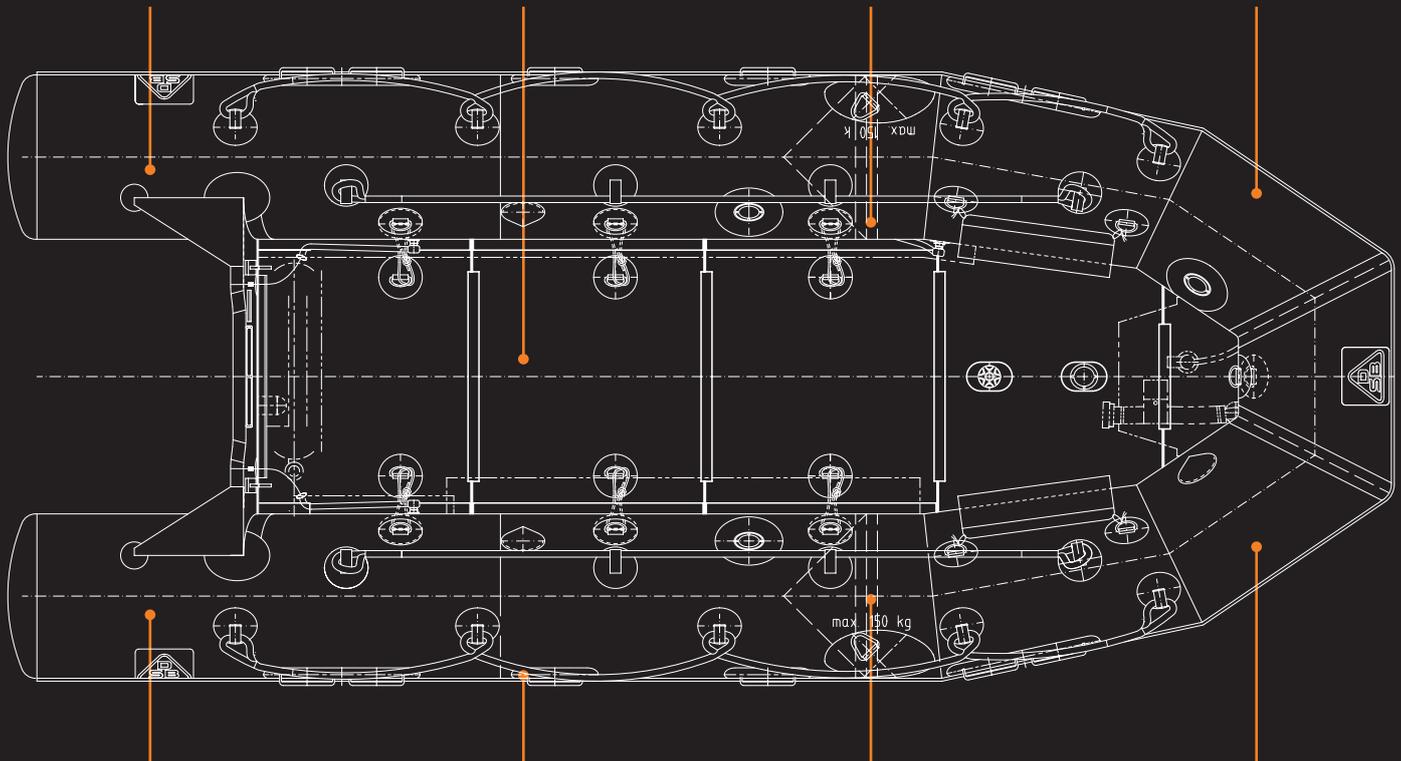

Reinforced hypalon seams for increased durability

Optional anti-skid, wooden inflatable or aluminium flooring

Advanced bow design for increased internal space

Low weight for easier manoeuvrability

Low fuel consumption for increased operating time

Complete range of accessories available including handles, ropes etc.

Ultraviolet light and abrasion-resistant hypalon fender tube

Inflatable deep V-shaped keel for improved manoeuvrability

TECHNICAL & PERFORMANCE INFORMATION

Length overall (m)	3,800
Width overall (m)	1,670
Length inside (m)	2,595
Width inside (m)	0,760
Weight hull (kg)	51
Weight wood floor (kg)	41
Weight roll-up floor (kg)	36
Weight aluminium floor (kg)	39
Weight inflatable floor (kg)	9
Buoyancy chambers (Stk)	3
Max. Payload (kg)	830
Crew limit (Stk)	6
Max. Motorization (KW) / (PS)	29,4 40
Max. Weight motorization (single or twin) (kg)	115
Buoyancy (m³)	1,22
Boat inner surface (m²)	1,82

Dimensions stowed boat lxbxh (cm)	115x58x30
Dimensions stowed standard equipment lxbxh (cm)	110x63x20
Tube diameter (cm)	45,5
Tube diameter bug (cm)	42,0
Fabric	Hypalon 1670 dtex

Available with low noise battery powered whisper engine.

	SLOW	HIGH
SPEED IN KNOTS (KM/H)	2.7 (5.0)	6.0 (11.1)
RANGE IN SM (KM)	27 (50)	12 (22)
RUNNING TIME IN HRS	10:00	01:15

* High acceleration and stopping capacities
