

2-MAN BACK PACK BOAT FACT SHEET

FOR COVERT INFILTRATION OPERATIONS

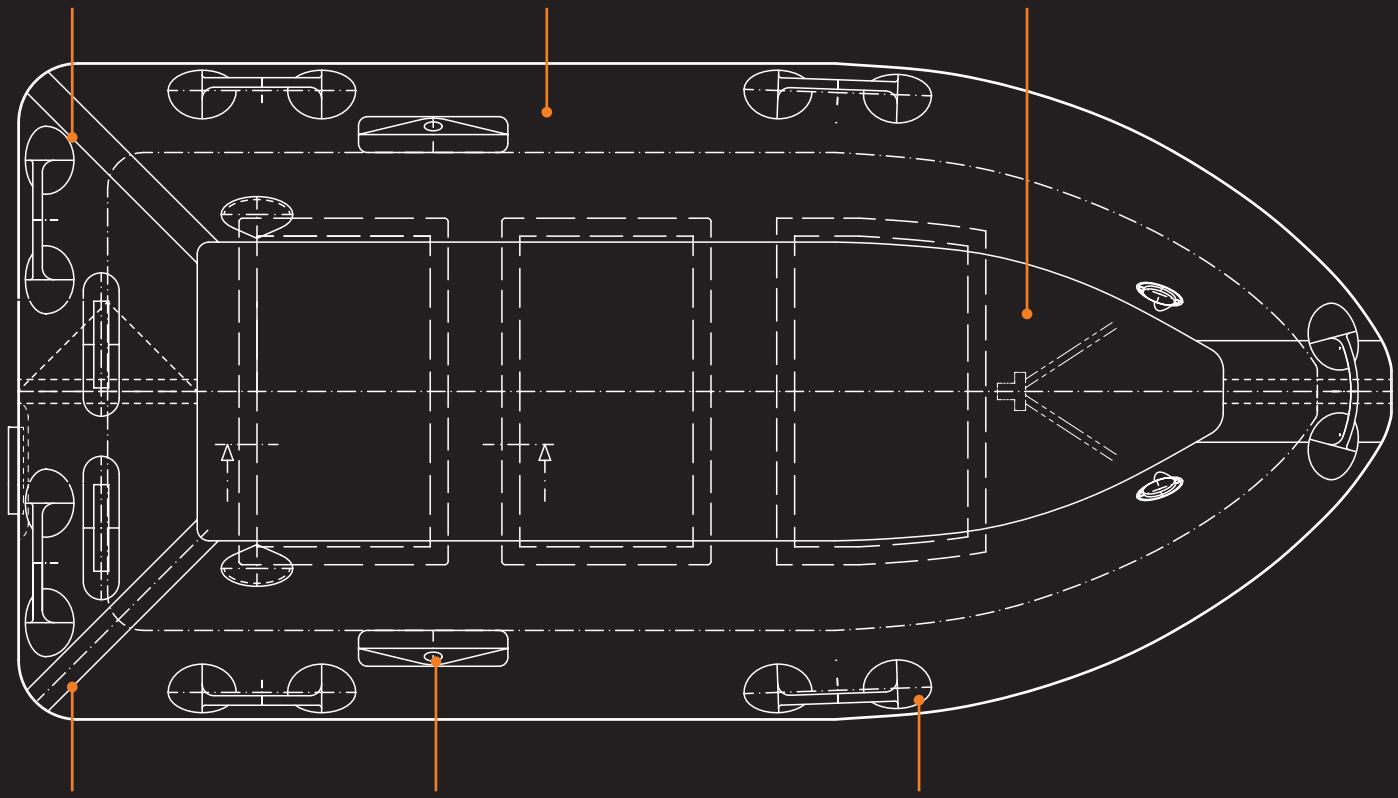

The DSB Two Man Boat is a unique lightweight solution designed to optimise covert operations such as beaching. At only 13kg in weight, the boat fabric and buoyancy tube is a robust UV resistant hypalon with an independent air compartment and extra strong heavy duty valves. Deployment is a matter of seconds as the boat features no lose items. The sandwich floor integrates hard bottom plates that are segmented ensuring the boat is ready for use or easily folded without any assembling or disassembling. The boat is equipped with soft handles on the outside of the fender tube and light weight oar brackets which allow convenient use of paddles.

Skin and buoyancy tube constructed from UV resistant Hypalon

Independant air compartments and extra strong heavy duty valves

Sandwich floor integrates hard bottom plates segmented to ensure the boat is ready for use or easily folded after use without any assembling or disassembling.

Rapid deployment in under 10 seconds

Extra light weight oar brackets which allow convenient use of paddles as both paddles and as oars for rowing.

Extra light weight soft handles on the outside of the fender tubes

TECHNICAL & PERFORMANCE INFORMATION

Length overall (m)	2,300	
Width overall (m)	1,100	
Length inside (m)	1,720	
Width inside (m)	0,500	
Weight hull (kg)	13	
Buoyancy chambers (Stk)	2	
Max. Payload (kg)	155	
Crew limit (Stk)	2	
Max. Motorization (KW) / (PS)	2	2,7
Max. Weight motorization (single or twin) (kg)	20	
Buoyancy (m³)	0,33	
Boat inner surface (m²)	0,76	
Dimensions stowed boat lxbxh (cm)	78x50x20	
Tube diameter (cm)	30,00	
Fabric	Hypalon 1100 dtex	

Available with low noise battery powered whisper engine.

	SLOW	HIGH
SPEED IN KNOTS (KM/H)	2 (3,7)	4 (7,4)
RANGE IN SM (KM)	12,8 (23,7)	2,8 (5,2)
RUNNING TIME IN HRS	6:20	0:42
